What's lurking in your home?

Have you looked at the labels of your cleaning products? Many products are loaded with toxic chemicals that can be harmful to your family, home, pets, and the environment. These chemicals can give off fumes that may irritate the throat, eyes, or lungs; trigger headaches and fatigue; irritate the skin; pose a safety hazard; or affect the body in other ways.

Many "natural" products
are LOADED with chemicals,
phthalates, and hormone disruptors
that are bombarding your body.

Fortunately, there are many ways to clean surfaces in your home without using harsh chemicals. Cleaning with natural, non-toxic cleaners is healthier for the environment and everyone in it.

With natural cleansing and purifying properties, certain essential oils can be a helpful part of your regular cleaning routine. Not only can essential oils be used to cleanse surfaces and purify the air, but they leave behind a pleasant aroma that will instantly make your home feel clean and refreshed.

SPRING CLEANING

2 cups distilled water
2 teaspoon liquid castile
soap (Dr. Bronner's)
20 drops Rosemary
essential oil
22 drops Tea Tree Oil
16 ounce spray bottle

All Purpose Counter Spray

Most popular oils for cleaning

TIP!

Substitute air fresheners with essential oil diffusers. Add 4-6 drops essential oil for a clean aroma and to purify the air.

Cleanses and purifies the air and surfaces.

Citrus Oils

Grapefruit can be used for cleansing and purifying.

Use 2 tablespoons of doTERRA® On Guard® Cleaner Concentrate to a 24 oz. spray bottle filled with water for an all-purpose cleaner.

Use Purify® to help remove unpleasant odors, while leaving a clean and refreshing aroma behind.

A powerful surface cleaner. Diffuse to purify the air.

Tea Tree oil is best known for its purifying qualities, which make it useful for clean home surfaces, and purifying the air.

Peppermint and Lemongrass are perfect for cleaning hard surfaces in the home and deterring pests!

Kitchen

Dishwasher Tablets

COMMERCIAL DISH DETERGENT IS LOADED WITH CHEMICALS

Ingredients

1 cup
baking soda

¼ cup
citric acid

1 tbsp On Guard®
Cleaner Concentrate

5 drops
Grapefruit
(or any citrus)

Have comfort knowing you aren't washing your dishes in harmful chemicals!

Directions

Put all ingredients into a bowl and mix together until the mixture is an even consistency.

Place in silicone molds and let sit for 4 hours.

Remove tabs and store them in an airtight container. Use in place of store-bought tablets!

TOXINS COME FROM COUNTLESS SOURCES, MANY OF WHICH WE ARE NOT EVEN AWARE OF.

Microwave Cleaner

MICROWAVES ARE A HOT SPOT FOR CAKED-ON FOOD.

Ingredients

1 cup
white vinegar

2 cups
hot water

15 drops
Lemon oil
(or any citrus)

Try other oils such as Lime Wild Orange or OnGuard®.

Combine the ingredients in a glass spray bottle

Spray mixture inside the microwave, let sit and wipe clean using a damp cloth!

Stove & Oven Cleaner

NO SCRUBBING OR CHEMICALS NECESSARY!

Ingredients

½ cup
baking soda

1 tbsp
coarse salt

¼ cup
liquid dish soap

5 drops
Lemon essential oil
(or any citrus)

Green cleaning with ingredients you already have in your home!

Directions

Combine ingredients to make a thick paste

Apply a generous layer to the inside of the oven and let it sit for a few hours

Clean out with a damp sponge

Garbage Disposal Refreshers

FRESHEN, CLEAN AND DEODORIZE!

Ingredients

2 cups
baking soda

1 cup salt

½ cup water

½ cup unscented
castile soap

30 drops Lemon oil

Make once every few months

Directions

Combine baking soda and salt in a bowl
Add castile soap and essential oil into the mixture

Add water, 1 tbsp at a time, while stirring until it becomes the consistency of "damp sand."
(It should stay together when pressed - if you add too much water just add more baking soda)

Scoop a tbsp of mixture onto parchment paper and let dry for 24 hours or until hardened.

Store in a glass jar. Place 1-3 refreshers into the garbage disposal and turn on as needed for freshness!

DOES YOUR GARBAGE DISPOSAL NEED A LITTLE ATTENTION?

Kitchen
